

MPA Competitive Gaming (Grades 9–12)

RSU5 Community Programs is excited to offer an opportunity for students to compete in the Maine Principals' Association's newest sanctioned event: esports!

Join a team of your classmates as you represent RSU5 and Freeport High School in competition with other teams from around the state playing Rocket League or Super Smash Bros.™ Ultimate, with opportunities to join regional leagues to play Splatoon™ 2, Mario Kart™ 8 Deluxe, Madden NFL 22, Hearthstone, or other titles yet to be announced.

Coach Brandon Cass, FHS Class of 2016, will ready players for game days, incorporating physical exercise along with live practice sessions. Fitness and sportsmanship will be stressed, as we mold a respectful generation of gamers who can work together to hone their skills as a team. Players can move on to one of the nearly 200 varsity collegiate programs currently offered in this country, or into professional competition where hundreds of players around the world have each totaled hundreds of thousands of dollars in prize money.

Practices will be held up to four days per week, Monday through Thursday, depending on competition schedules. Register at rsu5cp.org
